# WELCOME TO BARCELONA.

In celebration of the Centenary of Antoni Gaudí, we present a curated collection of experiences that invite travelers to go beyond the city — combining a refined Barcelona city break with transformative retreats in inspiring locations just outside the city.

These journeys are designed for travelers who seek culture with depth, beauty with meaning, and rest without disconnection. A dialogue between architecture, nature, creativity, and inner renewal — all rooted in the spirit of Gaudí.

# GAUDÍ: A LIVING LEGACY

Antoni Gaudí was not only an architect; he was a visionary who understood space as an emotional and spiritual experience. His work blurred the boundaries between nature, art, and structure, shaping Barcelona into one of the world's most distinctive cultural capitals.

From the organic curves of Casa Batlló to the symbolic grandeur of the Sagrada Família, Gaudí's influence continues to define Barcelona's identity: bold, creative, deeply connected to nature, and unapologetically unique.

This centenary is an invitation to experience his legacy not only through buildings, but through the philosophy he embodied — slowing down, observing, and creating harmony between the inner and outer world.

# THE EXPERIENCE

## CONCEPT: CITY & RETREAT

Our experiences combine:

- A curated city break in Barcelona, focused on Gaudí's architectural legacy and cultural immersion.
- A retreat outside the city, in carefully selected natural settings, offering space for reflection, creativity, and reconnection.

This balance allows guests to experience the vibrancy of Barcelona while embracing the calm and perspective that only nature can offer. Each journey is designed as a seamless narrative — from urban inspiration to restorative stillness.
